

LEADERSHIP WORKSHOP

Cultivating a Resilient Culture

In an environment of constant change and uncertainty, a robust work culture is essential for success. In this workshop, we will address the following key topics:

- **Being Intentional About Work Culture:** We'll explore the importance of actively shaping and nurturing your work culture rather than allowing it to develop haphazardly.
- **Strategies to Define Your Desired Culture:** We'll provide practical strategies and tools to help you define the culture you aspire to cultivate within your organization.
- **Behaviors at Work:** We'll explore how certain behaviors can either reinforce or undermine your desired culture, and how to cultivate behaviors that drive productivity and organizational success.

This workshop is for leadership teams wanting valuable insights and practical tools for cultivating a resilient and thriving work culture for the sake of their success.

Christine Pothier is a Behavior Specialist and founder of Wayscape, an Ottawa-based coaching and consulting practice. She works with leaders, established and emerging, act in the face of fear and hardship to realize their vision. She can be found on LinkedIn, at local networking events and at coffee shops near you.
